ETHERMA eTOUCH basic - Switch mounting thermostat with touch pad

NEW

USE

The eTOUCH basic is characterised by the energy-saving function and its perfectly shaped design. The fuzzy logic control technology guarantees not only a more constant temperature but also helps to actively save energy. The control has a large segment display, as well as a selection function for floor or room temperature control. Optionally, the room temperature can be regulated and a limit can be set for the floor temperature.

ETHERMA INFO: Compatible switch programmes can be found on www.etherma.com.

TECHNICAL DATA

>	Voltage:	230 V
>	Switching current:	16 A
>	Temp. range:	5 – 40 °C
>	Mounting:	on flush-mounted switching box
>	Hysteresis:	Adjustable +/- 0.2 to 2.0 °C
>	Calibration:	-4 to +4 °K
>	Power reserve:	24 hours
>	Draw-down:	via external timer
>	Display colour:	White
>	Frame colour:	Gloss signal white RAL 9003
>	Display contrast:	0 to 10
>	Dimensions:	55 x 55 mm (without frame)
>	Floor sensor:	3 m (max. 50 m)
>	Protection rating:	IP 21
>	Approval:	CE compliant

BENEFITS OF THIS PRODUCT

+ Delivery with white frame (gloss)
+ Temperature reduction via external timer
+ Capacitive touch buttons
+ Compatible with various floor sensors
+ Easy menu navigation
+ Protection against overheating of wooden floors

eTOUCH basic switch mounted thermostat with Touchpad, 230 V, IP 21   RG: 007 | DT: ex stock

Type	Order no.	Description
eTOUCH-basic-w	39722	Switch mounting thermostat with touch pad, 16 A, 5-40 °C, incl. white frame
ET-EF-eTOUCH	36826	Replacement sensor for designer thermostat eTOUCH

ET-71 - room, combination or floor thermostat for switch installation

USE

This thermostat features an energy-saving function. The fuzzy logic control technology guarantees not only a more constant temperature but also helps to actively save energy.

Selection function for floor or room temperature control. Optionally, the room temperature can be regulated and a limit can be set for the floor temperature.

ETHERMA INFO: Compatible switch programmes can be found on www.etherma.com.

TECHNICAL DATA

>	Voltage:	230 V
>	Switching current:	16 A
>	Mounting:	on flush-mounted switching box
>	Temp. range:	10-45 ºC
>	Colour:	White, similar to RAL 9016
>	Dimensions:	55 x 55 mm
>	Protection rating:	IP 21
>	Floor sensor:	3 m
>	Approval:	CE compliant

BENEFITS OF THIS PRODUCT

+ Control through fuzzy logic control intelligence
+ Temperature limitation prevents improper operation
+ ON/OFF switch

ET-71, 230 V, IP 21   RG: 007 | DT: ex stock

Type	Order no.	Description
ET-71	38692	Switch mounted thermostat, 10-45 °C, 16 A, colour: white; remote sensor included
ET-AR-7x	37830	Flush-mounting adapter
ET-EF-7x	37847	Replacement sensor
